WHITE DELPHINIUM
Pearl Necklace (Hoodacres)

Be one with all the Garden's growth and need
And you will know the sharpest joy of life—
The joy of giving love and service due,
And winning back, as recompense for love,
The very breath and soul of beauty's self!

I do not think it strange that God first set
His new creation, Man, in garden ways—
There is no other spot in all the earth,
To which the mortal heart so cleaves and clings
As to a garden—whether it may be
Broad acres or a rift among the rocks,
No larger than the space for seven seeds!
As Jesus said of men, so of His flowers,
Where two or three are gathered, there is God.

AGNES KENDRICK GRAY.

The Garden That is Different

IN times like the present, as more and more we realize that "It is not the size of the man in the fight, but the size of the fight in the man that counts", what inspiration and courage we gather from our flowers! They are as gallant and assured, as gay and winsome, as in the halcyon days of the past; and their number is legion. We offer in these pages many little known varieties, lovely as they are rare. In reading our catalog you will discover that we add each year more of these new delights to our long list of old-time favorites.

In compliance with requests for assistance in planning the home garden, we offer the benefit of our experience in plant combination and arrangement. We visit personally the grounds to be planted and render the service at more moderate rates than those of the professional landscape gardener.

From the wealth of bloom which our Gardens furnish throughout the season, we supply decoration both unusual and inexpensive for either the formal or informal occasion. Baskets filled to order; flowers cut while you wait.

Within reasonable radius of Hildemere **we deliver** plants on orders of \$5 and upward. We feel however that whenever practicable you will prefer to come yourselves to our Gardens where you may see the plants growing and make your personal selection.

Visitors welcome every day except Sunday

Open evenings until dark

PLANTS FOR THE HARDY BORDER

	SEASON	EACH	THREE	DOZEN
Achillea		\$0.20	\$0.50	\$1.80
